Short and Long Term Memory Care

Enriching Lives!

About Us:

At Greater Hartford Memory Care Centers, we are dedicated to providing compassionate care and enriching the lives of our residents through personalized programs and supportive environments.

We provide quality comprehensive care including behavioral health programs to individuals with Alzheimer's disease, related dementia and other cognitive disorders. Residents can receive therapeutic care in an atmosphere that promotes independence, privacy, and dignity.

Our dementia care team guides and supports you and your family members as they transition to our skilled nursing care centers. Upon admission to our program, residents' specific needs and lifestyle patterns are identified and addressed through the assessment and individual care planning process.

Unique Aspects of Greater Hartford Memory Care Centers:

- **Individualized Care Plans:** Each resident receives a personalized "All About Me" book and a Can-Do list, which is completed, printed, and filed in their care plan. Copies are hung inside closet doors for easy access and kept in the cognitive assessment book to guide our care approach.
- **Goal-Oriented Care:** We utilize residents' assessment scores to tailor goals and activities, ensuring they are appropriate and meaningful to their individual needs and abilities.
- **Certified Dementia Practitioners:** Our CNAs, LPNs and support care staff are Certified Dementia Practitioners, ensuring specialized knowledge and skills in dementia care to provide the highest quality of support.
- **Compassionate C.A.R.E. Model:** Our mission is to enrich the lives of individuals and families affected by cognitive decline through Compassion, Advancing person-centered care, Reinforcing family support, and Ensuring a safe environment.
- **Personalized Dining Experience:** Our dining program emphasizes dignity, respect, and enhanced socialization, ensuring each mealtime is a pleasant and engaging experience for residents.
- **Holistic Care Approach:** We assess and address dementia-specific needs through comprehensive assessments and personalized care planning, ensuring each resident receives tailored support.

"The lives of the residents of our program and their families shall be enriched by having received distinctive care and services, suited to meet their unique needs through specialized staff training, social engagement activities, and in an environment centered on their health, comfort, and safety."

- **Safe and Nurturing Environment:** Our facility is designed to provide a comforting and secure setting, maximizing resident autonomy and promoting a sense of well-being.
- **Family and Friend Involvement:** Regular opportunities for families to discuss their experiences, receive education on dementia care, and engage with our dedicated staff.
- **Sensory Stimulation Programs:** We offer a variety of sensory activities, including aroma therapy, music therapy, and sensory rooms, designed to enhance cognitive stimulation and relaxation.

Excellence in Short-Term and Long-Term Care
